JOSIAH TURNER, Jr., EDITOR.

STORIES OF 1812.

TWO OF THEM NEVER BEFORE IN PRINT.

There were two occurrences in the war of 1812 which are characteristic of the Kentucky soldiers at that time, which I do not recollect to have seen in print. The one occurred while the American prisoners were being marched through Canada to Fort George. On one occasion the officer commanding the guard bought some whisky, and invited a Kentucky corporal to drink. The British Captain gave as a toast, George III. The corporal drank without hesitation. The British Captain then called upon the corporal for a sentiment. The corporal rather declined, saying, 'You have been kind in inviting me to drink, and I may give offence by giving a toast.' 'No,' said the Captain, 'give a sentimental toast.' The corporal then said: 'May the skins of Kings be made drumheads, and the shanks of Tories drumsticks, to beat the Americans to arms.' The British Captain remarked: 'Sir, you must remember where you are, and act accordingly.' A British lieutenant, who composed one of the company, said: 'Stop, Captain, you called for a sentiment, and must not now take exceptions.' Suffice to say, the British officers swallowed the toast.

The other happened at Camp Jackson, below New Orleans, on the 8th of January, 1815. After the British made their last charge on our breast-works they sent in a flag of truce, which was met by a flag from the American army, asking the privilege to remove their killed and wounded, which were numerous. A line was designated so far from our breast-works as to prevent the enemy discovering the nature of our defences, and American soldiers placed on one side of the line and British soldiers on the other. While their dead and wounded were being taken to this line and received by British soldiers, a soldier belonging to the latter remarked to a Kentucky soldier: 'It is useless for you to continue the contest, we are determined to take the city. We have Lord Packenham, Lord Gibbs, and Lord Keene, and a powerful army, and are determined to take the city.' To which the Kentucky soldier replied: 'We have on our side the Lord God Almighty, the Lord Jesus Christ and the hero, Old Hickory, and I'll be damned if we don't whip you.' Kentuckians may be overpowered, but still they will crow.—*Lexington Gazette.*

The committee to investigate the charges against General O. O. Howard, had before them to day J. W. Rumsey, who was subjected to a lengthy cross examination on his testimony of yesterday. He was further examined in reference to the expenditure of $4,000 to put iron columns in the Howard University to relieve the weight of the floors from the patent brick walls; and a further expenditure of $13,000 to repair the damage by the fall of a portion of building of the University. Mr. H. R. Searles, the architect, testified that the original owners in the Patent Building Block company were General O. O. Howard, Chas. H. Howard, C. H. Whittlesey, J. W. Alford, D. L. Eaton and George W. Balloch. The committee adjourned until Tuesday on account of Mr. Ketchum, General Howard's attorney, being called to New York. The evidence of yesterday shows that certain bonds of a church having been cashed at their face value by General Balloch upon an order of Howard, amounting to $24,000, and had been deposited in the Freedmen's Savings Bank, and $18,000 of which was to his (Howard's) credit, as the special treasurer of the church fund and his individual credit, which amount he secured to the church by deposit of mortgage made by D. L. Eaton to General Howard on a piece of property which the latter had previously sold to the former. It is also stated that General Howard had requested the contractors and others that in making purchases they should obtain whatever hardware, &c., was needed of J. R. Elbans, as it would be to his (Howard's) pecuniary advantage, and that when the bills were presented they were taken to Balloch, who did not pay the money to Mr. Elbans, but, upon the bills being receipted, the amount was applied to the payment of certain protested notes of Mr. Elbans, upon the back of which was the name of Gen. Howard as endorser. These notes are understood to have been given in connection with the purchase of the Barry farm.—*Rich. Whig, special Dispatch.*

SEEING WITHOUT EYES.—It is fully established that somnambulists go wherever they please without hesitation, read and write, and give ample evidence of a power of perception independent of the usual organs of vision. Persons subject to attacks of cataleapsy frequently show the same peculiarity. M. Despine, late inspector of the mineral waters of Aix, in Savoy, mentions the following among many other cases: "No. only could our patient hear by means of the palm of her hand, but we have seen her read without the assistance of the eyes, merely with the tips of the fingers, which she passed rapidly over the page that she wished to read. At other times we have seen her select from a parcel of more than thirty letters the one which she was required to pick out; also, write several letters and correct on reading them over again, always with her finger ends, the mistakes she had made; copy one letter word for word, reading it with her left elbow, while she wrote with her right hand. During these proceedings a thick pasteboard completely intercepted any visual ray that might have reached her eyes. The same phenomenon was manifested at the soles of her feet, on the epigastrium, and other parts of the body where a sensation of pain was produced by the mere touch."

Persons who have become blind have also been known to acquire the same powers, and Harriet Martineau tells of an old lady who had been blind from her birth, and yet saw in her sleep, and in her waking state described the color of the clothing of the individuals correctly.

In these cases no doubt perception is, as usual, in the brain; but either all the nerves of the surface have the power of conveying the impressions of light to that organ or some special parts of the body, as the ends of the fingers, the occiput, or the epigastrium, assume the office of the eyes.—*Dr. Clark, in Hours at Home.*

Love of children is always the indication of a genial nature, a pure and unselfish heart.

Never make that man your friend who hates reading, music or the laugh of a child.

Sell at small profits, for cash, and make it known through the newspapers.

UNPRECEDENTED SUCCESS

Medal Awarded by the Paris Exposition, 1867.

THE AMERICAN COMBINATION Button Hole & Sewing Machine

Has been honored with the highest award in premiums and diplomas wherever entered for competition at fairs and exhibitions held during the past season.

THE SIMPLICITY, EASE AND CERTAINTY with which this machine operates, as well as the uniform excellence of its work, throughout the entire range of Sewing, in

Stitching, Hemming, Felling, Tucking, Cording, Braiding Quilting, Gathering & Sewing on, Overseaming, Embroidering on the Edge, and its Beautiful Button-Hole and Eyelet Hole Work.

Places it unquestionably far in advance of any other similar invention.

It is also the CHEAPEST intrinsically, as well as the BEST, since it is really TWO MACHINES combined in one, (by a simple and beautiful mechanical arrangement never before accomplished by human ingenuity,) making either the Lock Stitch or Button-Hole Stitch, as occasion may require. It is at the same time, simple in construction, comparitively noiseless, easily understood, and in a word, it combines with these ADVANTAGES, EXCLUSIVELY ITS OWN, THE MOST DESIRABLE QUALITIES OF ALL OTHERS.

The public are invited to examine this remarkable machine at Mrs. Tompkins' Boarding House, (Mrs. Thompson's old stand,) Fayetteville Street, and at Watson's Photographic Gallery.

MORE ABOUT THE SWAMP LANDS.

It will be recollected that the Governor, in his editorial in the *Standard*, defending the sale of the Swamp Lands in the eastern part of the State, which belong to the School Fund, admits that 100,000 acres of the lands are capable of cultivation, that is, he says that there are 300,000 acres in all, about 200,000 of which are "daily covered with tide water and can only be reclaimed at great expense." Of course this means that the remaining 100,000 are *not* thus daily covered with tide water, nor subject to the expense of reclaiming them, more than is common to other uncleared lands.

Now, suppose the company never attempt to do anything with 200,000 acres, but operate only with the 100,000. It is a fact well known that a great part of this land is worth not only *five* dollars per acre, but *twenty five*; but as the Company, it is understood, is selling it at five, we will allude to it at that price, the individual purchasers getting the benefit of all that it may be worth above that price, which we are perfectly willing and glad they should do.

The Governor, or the writer of the editorial in the *Standard*, whom we take to be the Governor, says, "fifty families, with cattle and farming utensils, have settled on these lands;" (they had already settled on it before the Governor and his Board sold it,) "and fifty others have been added to the number." We think it probable this last fifty had also settled there before the sale. Thus we see, from the statement of the Governor, or of his organ, which is the same thing, that one hundred families have already purchased homesteads on these lands and settled on them.

We copy the following in regard to this settlement, from the *Eastern Intelligencer* of the 13th inst. "Two hundred more families will, by arrangement of the Company, soon be shipped to the same point, and from time to time, new accessions will be made to the colony of industrious, enterprising, intelligent laborers." The *Intelligencer* says "two hundred more families will soon be shipped to the same point," which, with the one hundred mentioned by the Governor, makes three hundred families that have already settled or made arrangements to settle on these lands sold by the State.

We have heretofore stated, and we did it upon what we conceived to be good authority, and it has not been denied by the *Standard*, that each of these families purchase of the "Hyde Park Settlement," 100 acres of land at $5 per acre. It is likely some of them buy more, but we will take it at the minimum; and now let's see how the matter stands so far:

The Governor and his Board sold 300,000 acres of land for $50,000. The Company has already within less than a month sold to 300 families 100 acres each, making 30,000 acres, at $5 per acre, amounting to $150,000. Thus we see that land which the Governor says could not be sold for more than fifty thousand dollars, and for which sum he accordingly sold it, the private purchasers have already sold 30,000 for three times as much as they paid for the whole, and have seventy thousand acres of good land and two hundred thousand acres of that which the Governor says tide overflows, still left.

Suppose they sell the remaining 70,000 acres of the good land at the same rate, (which from their sucess already, there is no doubt they will do,) and they will realize five hundred thousand dollars, or a nett profit of *four hundred and fifty thousand dollars*, and still the 200,000 acres remains, which, the Governor himself, or his organ, admits may be reclaimed, although "at great expense."

We call the attention of the people of North Carolina to this affair. We have not overstated the case, nor indulged in speculation; we have mentioned *facts*, most of these facts from the Governor himself, or his organ; if anything, we have under-estimated, for we think it probable the Company will sell much of the land at a higher price than five dollars per acre.—But on the facts laid down above it will be seen that the Governor and Board of Public Instruction, have *thrown away, or given away, four hundred and fifty thousand dollars of the Common School fund of the State*, that ought to be used for the benefit of the poor children of the State who are growing up without educational facilities.

And while this money is thus thrown away on the one hand, the Radical Legislature on the other, lays a tax of 8½ cents on the hundred dollars of property, for Common Schools. We don't object to this tax—the people will gladly pay it; but we can see no use of throwing away near half a million of dollars to speculators, and then turn round and tax the people to replace it.

Nor do we object to the sale of the lands and their settlement by "industrious, enterprising and intelligent laborers;" we are glad to see them come to the State, and it could possibly be no disadvantage to them, if they paid the price of their lands to wards the education of their own children, instead of putting it in the pockets of speculators and capitalists.

We again call on the people to remember this transaction of the Governor and Board of Education. If he did it for a portion of the profits he is inexcusable, nay, criminal; if he did it for nothing, he is not less so.

SENTINEL OFFICE, April 19, 1870.

DR. YATES:—As you have all the merit, so should you also have all the discredit of having originated any personal controversy between us. The Radicals who have been delighted with it, will give you all the merit, while the Conservatives and Democrats will give you all the demerit.

I shall take neither merit or demerit to myself in regard to the matter, for I was not a volunteer, but a conscript in the controversy.

I owe an apology to your friend Holden for allowing you to take up so much of my time and space, which the public will say should have been devoted to the Governor and his prodigate administration.

As you may have to bear the blame, among our friends, of originating, so you shall have the gratification of closing the controversy. I am not so tenacious as are some people, about having the "last word," for this reason, I have generally avoided entering into a controversy with a woman or an editor. You are my senior, and as my foreman, Mr. Collins, who is an old newspaper man, says that editorial etiquet demands that the senior should have the last word, therefore I say, as Uncle T. by said to the widow Wadman, take it.

I intended that my letter of March should close our correspondence, but as I omitted to answer your charge that I begged Gov. Holden to sign or recommend my pardon, I write this to correct the omission. A friend writes that you construe my silence on this subject into an acknowledgement of the charge. I am satisfied, Doctor, that you are alone in the enjoyment of this low opinion of me. That you should say so, is necessary to your self justification.

I am aware that your veneration for the character of Gov. Holden is equalled only by the public detestation of it. I am also aware that it was my denunciation, in Charlotte, of his treachery, hypocrisy and falsehood, that gave you so much offense.

Need I tell you, Doctor, that the public men who stand highest in the Governor's estimation, stand lowest in public estimation? For example, see his Railroad Presidents, Littlefield, Jones and Dr. Sloan.—See his Railroad Directors, Sloan, Leflin and Billy Henderson. See his Judges, Tourgee, Jaybird Jones and "Greasy" Sam. See his Professors at the University, Pool, Patrick, Martin and Brewer. But I will not pursue the subject further.

I had to send my petition for pardon to the President, as all others did, through the Governor. I did not hand it to him, but sent it by Mr. Webb of Newbern. So far from begging, I never even asked him to sign it.

I did ask him if he had received it, to which he replied, he had, and forwarded it to the President. He added, he "had read it with pleasure and an able petition it was." I left his office under the impression he had recommended my pardon.

Upon learning that he had not, I returned in five minutes and asked him directly if he had. His answer was evasive and full of duplicity and deceit. To ascertain whether he had recommended my pardon or not, I went to Washington City, where I found my petition not in the office of the Attorney General, where it should have been, but in Dr. Powell's pocket. The Attorney General ordered the Doctor to return it to the office "forthwith."

I then read the following endorsement in the Governor's hand:

"I recommend suspension in this case; it seems to be a bill of indictment against the Democracy. W. W. HOLDEN,
Prov. Governor."

The Governor, as I am informed, has tried through others to get a copy of the petition; I have one that I can furnish him.

Dr. Powell had in his pocket the petition of Gov. Morehead, Gov. Graham, and many others, with instructions from the Governor not to present them until further orders. I take it these were his instructions, for when he presented mine, after a peremptory order to do so, he stated that the "Governor did not wish it acted on." Let me say it, Doctor, without vain boasting, that I have as few political offenses to atone for as any man who went through a four years war for secession and a four years war for reconstruction.

I am told you are as implacable in your resentments as a Roundhead, and if it were not for giving you fresh cause of offense, I would re assert what I said in my Charlotte speech, that the lower a man stood in public estimation the higher he stood in that of your friend, the Governor's. I have never sought his friendship or his favor, as you have, nor by my silence aided John B. Neathery & Co., N. Paige & Co. and W. A. Smith & Co., in rescuing him from the public contempt into which he has been fast settling and is now firmly fixed. To borrow from Junius, I think Gov. Holden like Gov. Read, of Fla., is determined not to leave the ruin of his country to other hands. You see, Doctor, your bad example is contagious; there are others who are trying to imitate you, and provoke me into a useless controversy while the Governor, his aiders and abettors, complete the ruin of the State.

Tell your brother editors who profess to fight on my line for the redemption of the State from carpet-bag and Holden influence, not to imitate your example. Tell them they can't serve the State by a personal dispute with me. Tell them to be quiet at least until the election is over, after which we can renew our correspondence if you desire it. I cannot answer for my conduct to the people if I allow myself to be betrayed further into this controversy, or provoked into a new one, while State bonds sell for ten cents, and public lands for sixteen cents an acre.

A friend writes that the public have been the gainers by our correspondence; he says you have produced "moderation" in the SENTINEL, and *I* have completely restored the political health of the *Democrat* which, for four years, had been delicate and precarious.

Let us congratulate each other upon the success of our work, and join with Bragg and Graham, Whigs, Democrats and all, in raising the foot of the carpet-bag conquer or from the neck of a proud but fallen people.

Now that all true sons of the "Old North State" are engaged in raising their common mother from the pit of degradation and disgrace, into which Holden and his carpet-bag allies have thrown her, it shall not be said that I did not join them with all my heart and soul and strength.

So, Doctor, adieu; and hoping that your restored health will last you through the campaign, I subscribe myself as I am, yours in "*Loyalty and Moderation.*"

JOSIAH TURNER, JR.

The Cleveland *Herald* thinks the marriage service should be changed to read—Who dares take this woman? and the groom shall answer I dare. Name on the man.

We clip the following paragraphs from the Wilmington Journal of 17 h:

A GOOD EXAMPLE.—A Nevada judge, the other day, fined himself five dollars for being late. Some North Carolina judges would consume their salaries by following this good example.

The Constitution of the United States requires that "when vacancies happen in the representation from any State, *the Executive authority* thereof SHALL *issue writs of election* to fill such vacancies. The crimes of the carpet-bagger Dewese overtook him nearly two months ago, when he resigned his seat in Congress to escape being kicked out, and still we have no order of election from Governor Holden. We suppose Congress will hardly adjourn before August, and North Carolina should be fully represented in that body. Why don't the Governor act?

Mr. Pool favored military intervention in the South.—*Senate proceedings by Telegraph.*

Of course. A man who would authorize a statement in the United States Senate that he had taken the oath to support the Government of the Confederate States only to embarrass it, will descend to any depth of degradation. It did not require this new evidence to convince the people of the South that John Pool would aid in their punishment. Men who lose their self respect and forfeit that of their friends, will do anything to bring others to their own level.

CONTINUED SLANDERS.—The Washington *Chronicle* of Wednesday says: "in Alabama, as in North Carolina, the massacre of Unionists still continues." Here we have the echo of Holden's false proclamations and of the lies of his ambassador, Littlefield. Here we have the result of their evil machinations. This malicious falsehood of Forney will be published through out the North, and even in Europe, and settlers and capital will be kept from our borders. The false hearted son of North Carolina and his unscrupulous agent care little for the blow which they give to our national prosperity, so that they benefit their party.

In answer to this statement of Forney's, the Richmond *Dispatch* is permitted to publish an extract from a private letter of one of the Federal soldiers ordered from Richmon I to this State to a gentleman in that city:

"CAMP RUSSELL, NEAR RALEIGH,
April 10, 1870.

[Extract.]

I was very sorry indeed that I could not see you before I left. Both —— and myself would like to have seen you very much, but the order came so suddenly that we had no time to visit you. *I do not know for what cause we were sent here; as far as I can understand, every thing is very quiet.* I hope that we will go back to Richmond again."

Thus a Federal soldier, sent to aid in the partizan warfare against North Carolina, gives the lie to the slanders set on foot by an ignoble son of the State.

ASSAULT AND BATTERY IN JAIL.—One of the prisoners confined in jail, a negro by the name of John Terry, was brought before Justice McQuigg yesterday charged with an assault and battery on John Campbell, another colored prisoner, in jail Thursday last. Terry is the rascal who attempted to murder and rob Mr. Peter Mohr at his store on Dry Pond several months since.—He struck Campbell across the face with a rub, breaking his nose and knocking him senseless. He was remanded to jail to appear before the Superior Court on this charge also.

A quarrel took place between Sir Edward K., an English gentleman, very well known in Paris, and another sportsman, not less famous, the Baron R. The seconds had in vain endeavored to reconcile them, and it was necessary to have recourse to arms; but as both the principals were first rate shots and swordsmen, it was agreed that they should fight with—cigars. Two cigars, similar in every external respect, but one of them prepared in such a manner that it should explode and prove mortal to the smoker, were placed on the table. The combatants drew lots for the first choice. The novel weapons of war were then lighted, and after a few puffs an explosion took place and Sir Edward fell on his back. He, however, immediately got up, and was surrounded by his seconds, while his adversary offered him his hand. "Gentleman," said one of the seconds, "you have both of you shown the greatest courage since you were both ignorant of the effects of the explosion. Mr. R. (the other second) and I agreed only to put a little gun cotton in one of the cigars; and now let us to dinner. May such be the end of every duel!" The meeting is said to have taken place on the Belgian frontier.

A WASHINGTONIAN RELIC.—In a shop window at Washington may now be seen an old gold chain, with two seals, once worn by General Washington. The trinkets were given by General Washington to Colonel W. A. Washington, who bequeathed them to his son, Colonel G. C. Washington, from whom they descended to his grandson, James Baroll Washington. Col. Washington lost the gold seal in 1827, while hunting in Montgomery county, Md. Seventeen years afterwards (in 1844) a farmer plowed it up, and so it was restored to its owner. The silver seal is marked in monogram "G. W." It was lost in 1775, on the field of Braddock's defeat, and in 1842 was found in that field by Daniel Boone Logan, who presented it to Senator Johnson, of Virginia, who returned it to its present owner.

A civil engineer of Edinburg, Scotland, has invented a steam engine, or locomotive for common roads that has proved a capital success. A number of them of different sizes, and of ten, six and three horse power, have been in use on the common, poor, crooked roads in Scotland, and do an immense amount of heavy work, with admirable facility. Thick rubber tires are used on the wheels, thus preventing all concussion, and insuring the durability of the engine. This important invention is believed to make it possible to advantageously introduce steam plowing into this country.

A LADY WHO DOESN'T EAT.—The Richmond correspondent of the Petersburg *Courier* says:

I hear again from the lady who lives without eating. About this time last year I gave you some account of her. I am assured by her friends and relatives that she eats nothing at all and that she appears to be kept alive by a daily application of oil to her breast. My informants are intelligent and respectable people, not likely to be imposed on nor invent what they tell, and the lady herself is represented to be devotedly pious. Her beauty is described as angelic.

DROWNED.—On Saturday morning last a sad accident happened at the Rudasill Gold Mine in this vicinity. Two negro men were drowned in the Mine. It is said they were digging as usual, when one of them struck a stream of water which speedily rushed in and drowned both men. They were about 150 feet under ground, and the shaft filled so rapidly that nothing could be done to recover the bodies.—*Charlotte Democrat.*

RAILROAD MEETING.

A meeting was held at the Court House in Charlotte, on Saturday, the 16th inst., to devise means to build the Air Line Railroad. On motion of Col. W. R. Myers, Hon. Z. B. Vance was called to the Chair, and W. J. Yates and S. B. Alexander were requested to act as Secretaries.

The Chairman and Col. A. S. Buford the President of the road, explained the object of the meeting. Several other gentlemen also addressed the meeting, among them Gen. Lewis, of York, S. C. and Hon. James White, of Gaston county, N. C.—Gen. Lewis pledged his county to aid the enterprise, liberally, provided the road ran through Yorkville and Mr. White said that his county relied on Mecklenburg.

Col. Myers introduced a resolution providing for a subscription on the part of the people of Mecklenburg to the capital stock of the Air-Line Railroad, and Col. Wm. Johnston offered an amendment so as to include a subscription to the Atlantic, Tennessee & Ohio Railroad which was adopted and the resolution passed.

On motion the following gentlemen were appointed by the Chair to solicit private subscriptions to the Railroads: R. Y. McAden, W. J. Yates and T. H. Brem, and the following canvassers were appointed to canvass the county and explain the nature of the proposed subscription: Col. W. R. Myers, Col. William Johnston, Gen. Rufus Barringer, Dr. C. J. Fox and John T. Schenck, col.

On motion, the Chairman was added to the canvassers.

The meeting then adjourned.

Mr. Marshall, representing the Eleventh Congressional District of Illinois, has done his duty well against the tariff, and should receive a well-merited commendation were it not a sufficient testimonial of his ability to here reproduce his picture of the tariff, thus:

The farmer starting to his work has a shoe put on his horse with nails taxed 67 per cent., driven by a hammer taxed 54 per cent; cuts a stick with a knife taxed 50 per cent.; hitches his horse to a plough taxed 50 per cent. with chains taxed 67 per cent. He returns to his home at night and lays his wearied limbs on a sheet taxed 58 per cent., and covers himself with a blanket that has paid 250 per cent. He rises in the morning, puts on his humble flannel shirt taxed 50 per cent., his coat taxed 50 per cent., shoes taxed 35 per cent., and hat taxed 70 per cent.; opens family worship by a chapter from his Bible taxed 25 per cent., and kneels to his God on an humble carpet taxed 150 per cent. He sits down to his humble meal "from a plate taxed 40 per cent., with knife and fork 35 per cent.; drinks his cup of coffee taxed 47 per cent., or tea 78 per cent., with sugar 70 per cent.; seasons his food with salt taxed 100 per cent., pepper 227 per cent., or spice 379 per cent. He looks around upon his wife and children, all taxed in the same way; takes a chew of tobacco taxed 100 per cent., or lights a cigar taxed 120 per cent., and then thanks his stars that he lives in the freest and best government under heaven. If on the Fourth of July he wants to have the star spangled banner, or real bunting he must pay the American Bunting Company of Massachusetts 100 per cent. for this glorious privilege. No wonder, sir, that the Western farmer is struggling with poverty, and conscious of a wrong somewhere, although he knows not whence the blow comes that is chaining him to a life of endless toil, and reducing his wife and children to beggary.

THE NEW BUGGLE PLAGUE IN UTAH.—Utah is not only plagued with locusts, but with an insect called the "elephant beetle." A creditable person who returned from the neighborhood of Salt Lake recently, saw myriads of them covering the earth with their shining, brownish black bodies, and destroying everything which they met in their path. Even small animals, he was informed by the ill-fated residents, did not escape the voracity of these hordes. Their bodies were crowded upon, and wounded cruelly with the powerful antennæ, until they fell down exhausted by their struggles and loss of blood, when they were fastened upon by thousands and devoured. The entire carcass of a sheep was eaten, and the bones picked clean in three or four minutes; and it is said that a dead ox would be gobbled up by them in a quarter of an hour. So ferocious are these giant beetles, that mothers are afraid to let their children go out of the house unattended by a grown person. In their frequent bloody contests the wounded are devoured on the instant.

IF THE EARTH WERE TO STAND STILL.—If the revolution of the earth on its axis were to be suddenly stopped, the temperature of everything would be raised to such a degree as to be incapable of existing in any other form than vapor. When a bullet strikes the target it becomes so hot that it can not be held in the hand. Its velocity is at the rate of 1,200 feet a second, but what must be the heat produced when a body like the earth moving at the rate of 90,000,000 feet a second, is suddenly arrested? It would soon be converted into a sea of fire, and all life would become extinct.

It is not probable that this catastrophe will take place in our generation, but as the light of the sun is said to be due to the combustion of worlds in its atmosphere, our time may sometime come to add fuel to the flames.

A FLORIDA MURDERER.—One E. B. Alexander, who committed a horrible murder near Albany, N. Y., and afterward committed suicide, wrote a letter to his wife in which he made a full confession of the heinous act. In it is this striking passage:

"I am not scared. I am not afraid to die. I have never done any body any harm. I never went to sleep without making a prayer to myself, and I am confident that I will go to Heaven. I don't think it was my fault for doing this, for I could not help it. Nobody in the world ever tried to keep from doing anything as I did from that which I did."

LETTER FROM MRS. LINCOLN.—President Grant has received a letter from Mrs A. Lincoln stating that she was still in Germany and not in very good health, but very much in need of assistance. This she says has been proposed in the bill pending in the Senate to give her a pension, but the delay in acting on it she is unable to account for. The President will probably send the letter to either a Senate or House committee. The Senate Pension Committee, however, agreed to report a bill giving Mrs. Lincoln a liberal pension.

AMPHIBIOUS.—At the wharf in the rear of Messrs. Barry Brothers' office, yesterday morning, we were shown a specimen of the finny tribe in the shape of a young live alligator. His alligatorship was captured in the river a few miles below the city, by a colored man, who brought him here,—when Mr. R. P. Barry purchased him with the view of shipping him to New York to be placed in the Central Park in that city. He is about six feet long, and has the appearance of being as harmless as alligators generally get to be.—*Wilmington Star.*

MISCELLANEOUS.

WALTHAM WATCHES.

THE EXTENSIVE USE OF THESE WATCHES for the last fifteen years by Railway Conductors, Engineers, and Expressmen, the most exacting of watch-wearers, has thoroughly demonstrated the strength steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these time-keepers.

More than 450 000 of these watches are now speaking for themselves in the pockets of the people—a proof and a guarantee of their superiority over all others.

The superior organization and great extent of the Company's Works at Waltham, enable them to produce watches at a price which renders competition futile, and those who buy any other watch, merely pay from 25 to 50 per cent. more for their watches than is necessary.

We are now selling Waltham Watches at less prices in greenbacks, than the gold prices before the war. There is no other manufacture of any kind in the United States of which this can be said.

These time-pieces combine every improvement that a long experience has proved of real practical use. Having had the refusal of nearly every invention in watchmaking originating in this country or in Europe, only those were finally adopted which severe testing by the most skillful artisans in our works, and long use on the part of the public demonstrated to be essential to correct and enduring time-keeping.

Among the many improvements we would particularize:

The invention and use of a centre-pinion of peculiar construction, to prevent damage to the train by the breakage of main springs, is original with the American Watch Company, who, having had the refusal of all other contrivances, adopted Porg's Patent pinion as being the best and fautless.

Hardened and tempered hair springs, now universally admitted by watchmakers to be the best, are used in all grades of Waltham Watches.

All Waltham Watches have dust-proof caps, protecting the movement from dust and lessening the necessity of the frequent cleaning necessary in other watches.

Our new patent stem-winder, or keyless watch, is already a decided success and a great improvement on any stem-winding watch in the American market, and by far the cheapest watch of its quality now offered to the public. To those living in portions of the United States where watchmakers do not abound, watches with the above mention d improvements which tend to insure accuracy, cleanliness, durability and convenience, must prove invaluable.

Every watch guaranteed by the Company.

To prevent imposition, buyers should see that every watch should bear either of the following trade marks.

PATENT GLASS SUBMERGED

DOUBLE-ACTING FORCE PUMP.

SUBSTITUTE FOR A FIRE ENGINE.

THIS Pump will pump 30 gallons of water per minute, will never cut out the packing, has no friction, no water ever stands in its pipes to freeze, and is less liable to get out of order than any other pump now used. It can be set up in a short time by any ordinary mechanic.

The No. 3 pump for yard wells will be sold at from $20 to $30, capable of throwing 30 gallons of water per minute. The price of No. 2 for railroad stations, throwing 60 gallons per minute, will be given upon application.

Having the exclusive right to this pump for the states of North and South Carolina, and having established a factory for the manufacture of them at Wilson, N. C., I will receive orders for them at Wilson, and will ship them by Express C. O. D., or, if the money is sent me, by the regular freight. The number of feet in the depth of the well must be given in all cases

BEAUTIFUL CITY LOTS AT AUCTION.

ON TUESDAY THE 3rd of May next, I will sell to the highest bidder, twelve (or more) of the prettiest building Lots in the City of Raleigh. They are a portion of what is known as the "Polk" or "Rayner" property, situated 3 or 4 squares North-east of the Capitol, and in the most eligible and desirable portion of the City. The buildings will be removed and Blount and Person streets extended North, intersecting a Street running East and West in rear of the present garden, the Streets all to be full width (66 feet) thus affording nice fronts and easy access to each Lot.

TERMS:—1st, one-third cash, balance one and two years.

OR,

2nd, one two and three years, the purchaser giving approved security for the erection thereon, in the next twelve months, of buildings to cost not less than one-half the sum at which the lot is bid off, without interest in either case, and title retained till purchase money is paid.

Sale to take place on the premises; commencing at 4 o'clock.

New Ads.—Messrs. Primrose, Petty & Newson have a most splendid and extensive stock of goods opened for the Spring and Summer trade. The variety is great in the number of articles and in the qualities of the same article. See their advertisement for further information.

Seasonable wearing apparel at the well known house of R. B. Andrews & Co., for men and boys. Anything we could say in commendation of this establishment in regard to style, fashion and quality of the goods, would be so far behind what is already known on the subject, that we don't conceive it worth while to say it. We will only say that Andrews is there and the goods are there, as usual.

Persons intending to buy cooking stoves would do well to examine the stock of Mr. T. H. Briggs, who has a number of stoves of the most approved patterns.

Pink Hardie offers the means for splendid and agreeable puffing, also for chewing and the means of producing a general sneezing—that is, he has cigars, tobacco and snuff, of all qualities and prices.

The Ku Klux Case.—The case of the State vs. Barker, Olive and Collins, was resumed yesterday and at about 8 o'clock at night, was ended by a verdict from the Jury of "Not guilty."

The Prosecution was ably conducted by Solicitor Cox and Messrs. Phillips and F. H. Busbee, and the defense as ably by Messrs. Fowle and Badger and York. All the evidence that was to be obtained was brought out, and all the points of law in the case brought to bear.

The jurors were, L. T. Grissom, P. McGowan, Sr., E. O. Macy, Alfred Mitchell, Lewis Goodloe, Hackney Pool, Joe Miller, J. C. L. Harris, Henry Haywood, Wesley Hartsfield, B. D. Pleasants and W. P. Warren.

Two of these were colored, and as to politics, the Republican element considerably predominated. We mention this fact to show that the verdict was not the result of Ku Klux intrigue, as the *Standard*, which a few days before the trial published an article calculated to inflame and bias the public mind on the case, would have people believe.

So ends this "Ku Klux outrage," sent out by the *Standard* six days ago, as an evidence of disloyalty and rebellion in North Carolina.

JOHNSTON COUNTY CONVENTION.

We are requested to give notice that there will be a Convention of the Conservatives of Johnston County at Smithfield, on Saturday, May 14th, to take steps in regard to the approaching campaign. All who are opposed to the present corrupt and extravagant State administration, are invited to participate, without regard to race or color.

MANY CITIZENS.

April 19th 1870.

An Incident.—A gentleman, whom we will call Mr. A, came into our office a day or two ago to subscribe for the Sentinel. Another gentleman whom we will designate as Mr. B, was sitting in the office, and when A gave his name, B observed, "Why, I think we have met before; wasn't you a member of the league?" "Yes," said A, "I was, and I remember now seeing you in the league when I joined."

It turned out, sure enough, that both had been members of the league in Raleigh, but both are out now, and as good anti-Radicals as one would desire to meet.

Ruffin Badger Institute.—The annual exercises at Ruffin Badger Institute, Moringsville, Chatham county, N. C., will take place on Thursday 28th inst.

The annual address will be delivered by Col. Claude B. Denson, Principal of Pittsboro' Scientific Academy. The annual sermon will be delivered by Rev. L. Branson, A. M., of Raleigh, N. C.

A Slander on Kuester and Fraps.—A plain country farmer came into town yesterday, and having some business in the Court House, walked up the steps and entered the "Hall of Judgment." After looking round awhile he turned to an acquaintance standing near, enquired, "What's Kuester doing up there?" pointing to the Bench, where Greasy Sam was sitting with his head slightly drooping.

The person addressed, having probably been taking a little "anti-fogmatic," turned upon his interlocutor with all the dignity that superior wisdom assumes towards innocent ignorance, replied, "Kuester! the devil! that ain't Kuester—that's Fraps."

The Eighth Wonder.—To the seven wonders of the world an eighth has been added. It is a fluid without bad smell, sediment, or color, that changes the grayest hair to its youthful shade, in from five to ten applications. This prodigy of the age is Phalon's Vitalia, or Salvation for the Hair. Sold by all druggists and fancy goods dealers.

Beyond a Doubt.

More diseases are the result of a derangement of the Liver than from any other cause.—When that organ is diseased, every part of the system sympathizes with it, and general prostration and decline is the result. The best, safest and speediest remedy for Liver Complaint, and all the diseases that follow, is TUTT'S VEGETABLE LIVER PILLS, they are peculiarly adapted to the climate of the South. They are sold by Druggists everywhere.

ap 18-eod1w

Asthma.—A spasmodic affection of the Bronchial Tubes, which are covered with a dry tenacious phlegm. '*Brown's Bronchial Troches*' will in some cases give immediate relief. For Coughs, Colds, and Throat Diseases, the Troches have proved their efficacy.

"An Old Lady Friend having tried many remedies for Asthma with no benefit, found great relief from the Troches."—Rev. D. Lentz, Frankfort, Ill.

ap 18-eod1w

Look out for Fire.—That poor idiotic boy, John Ledbetter, as the Governor reported him to the Legislature, whom he pardoned out of a twenty-five years term in the Penitentiary, but who, six days afterwards was arrested and put in jail in Orange for stealing, and then found to be a big, burly fellow, twenty five years old, seems to have retained his suddenly improved condition of age and strength until Monday night last, when he broke jail and escaped, letting out several other convicted and unconvicted felons.

John is as stout, strong and bold a rascal as the Governor ever swore into his League at midnight by the ghastly light of acidified alcohol, and His Excellency ought to feel ashamed of that printed report about his boyish age and idiocy as long as he lives.

Another Pardon.—We learn the Governor has pardoned the negro, Beattie, convicted at the present term of the Court for stealing a mule and mare from Mr. W. J. Holleman, of this county, and sentenced to five years in the Penitentiary. We believe these frequent pardons are great inducements to rogues to continue their vocation; and all we can say to our readers is, insure your property and lock your stable doors.

Another item for the Standard Record.—At the recent term of Johnston county Superior Court, Green Watson, a colored member of the Governor's league, was tried and convicted for a brutal assault with intent to commit a rape on Miss Matilda Wade.

The Judge sentenced him to the very shortest term the law allows, five years, which Watson made a great deal shorter by breaking jail and escaping to the enjoyment of freedom and the pursuit of pleasure again. What with pardons and escapes, about half of the convicts of the State avoid the punishment of their crimes.

The following circular has been issued from the P. O. Department:

Sir:—The P. M. General duly received your favor of the 8th inst., in which were enclosed circulars issued by one Bryan Tyson, intended to be addressed to parties bidding for contracts for the transportation of the mails, and which you say, "have been scattered broadcast in the Southwest, to the injury of the Department."

The said Tyson having proposed, by his circulars, to enter into competition to prevent the making of bids for mail contracts by other persons. The P. M. General has lately issued an order to reject all bids sublettted by Tyson. This is done in conformity with the 28th section of the act of July 2nd, 1836, statutes at large, vol. 5, page 87, which provides the only remedy for any injury the Department may have received.

Acting 2nd Ass't. P. M. G.

THE UPS AND DOWNS OF WALL STREET.

[Correspondence of the Chicago Journal.]

New York, March 27.—One of the most striking instances of the ups and downs in life has come under my personal observation. A very few years ago John —— was a poor but industrious man, occupying the position of gatekeeper at one of the East River ferries. His family resided in a Brooklyn tenement house, and John expended no more funds than were strictly necessary for the maintenance of comfort. It had happened that Commodore Vanderbilt took a fancy to the man. It was one of those strange freaks for which the railway king is famous, viz: taking up men in the lowest walks of life and placing them on the highway to fortune. John may some time have opened the gate and stopped the ferry boat for the Commodore's team after the time was up. Perhaps he some time found and secured a valuable horse for him. Whatever may have been the cause, the Commodore was led to "coach" him. He was put into the Harlem pool. After the famous corner in that stock, John found himself worth $1,250,000.—From poverty he was lifted in a moment, as it were, into affluence. An elegant residence, splendid farm on Staten Island, and a valuable stud of horses soon followed. John continued to speculate, and fortune favored him. He entered into the Jerome combination, but here he lost heavily. Still he had a very large surplus left. When the rise in gold occurred last September John "waded in." As the price continued to rapidly advance he believed, with others, that the conspirators would carry it up to two hundred, and he operated accordingly.—When, upon the eventful Black Friday the collapse came and gold dropped in the twinkling of an eye, as it were, from 162 to 134, John was "long." Caught with other bulls on the horns of the bears, he reared and tossed about, but all to no purpose. John was a ruined man. The fortune which he once possessed was completely swept away from him. He mortgaged property right and left, hoping to stave off the evil day of settlement with his creditors. But his last piece of property is now to be sold under the hammer, and John is where he was, pecuniarily, before the Railway King smiled upon him.

This is the kind of entertainments to go to!—the ball given by Saide—ha, a Persian, in Paris. His lounges were covered with cashmere embroidered with gold, which he gave away to the departing guests. One lady, not caring for cashmere, took away a Persian carpet. Supper was served under a gilded trellis bearing ripe grapes, peaches, and cherries. The entertainment cost a trifle of $20,000.

Help for the Miserable.

No wonder that the face of the dyspeptic has a dragged, worn, hopeless expression that is pitiful to see. No wonder that the miserable martyr to indigestion is fretful, irritable, and unsocial. Whoever can bear the pangs of this tormenting complaint cheerfully, and with an unruffled temper, is little short of a saint. But why should human fortitude continue to be thus severely tried, when an absolute specific for the disease is always at hand. Everywhere within the limits of civilization in this hemisphere Hostetter's Stomach Bitters is obtainable, and the history of the first case of dyspepsia in which it has been administered in vain, has yet to be written. The sickness at the stomach, the sense of weakness and stupor, the feeling of emptiness and hollowness before eating, and of oppression afterwards, the fluttering of the pulse, the intense nervous irritation, to morbid indisposition to exertion, the weariness of life, and indifference to all it pleasures, which are among the symptoms of the disease in its chronic form are rapidly ameliorated by the tonic operation of this palatable vegetable restorative, which seems to renovate and quicken all the dormant forces of the system, and rouse the mind from the apathy and gloom inseparable from a derangement of the digestive and secretive functions. In ordinary cases a few weeks suffices to complete the cure, but when the disease is complicated, as it often is, with torpidity of the liver, severe constipation, impurity of the blood, and a sluggish circulation, a longer time may be required. Persevere, however, and the result is certain. An encouraging improvement will be perceptible from day to day, and the convalescent, knowing and feeling that he or she is on the high road to health, will await the happy issue with comparative patience.

Tuesday Night Dispatches.

WASHINGTON.

Washington, April 19.—In the House Butler introduced a resolution abolishing the income tax.

In the Senate Chandler offered an amendment to the "corruption resolution," directing the Committee to enquire whether Revels had attempted to use corrupt influences to secure votes on the Georgia bill. Forney objected and the motion went over.

The Georgia bill was discussed until recess.

The Senate reassembled at half past 7. A vote on the Georgia bill will doubtless be reached before morning.

Stephen Preston, white, arrived as Haytien minister to-day.

The Senate Judiciary Committee commenced to-day to examine witnesses in relation to the alleged attempts to secure the defeat of the Bingham Amendment by improper means.—Three witnesses were examined, and it is understood that evidence was elicited, going to show that Railroad bonds endorsed by the State of Georgia, were offered by outside parties, to secure the votes of Senators against the Bingham Amendment. Other witnesses have been subpœnaed.

A. E. Boone who testified that he was compelled to leave home in consequence of his politics, was before the Reconstruction Committee to-day in regard to Tennessee affairs; he was met by affidavits that he left his home in consequence of a private quarrel.

[Balance of Washington items will be given in next issue.]

New York, April 19.—Cotton quiet and steady, sales 1,200 bales, no quotations; Gold 13½ to 13¾; Governments dull but firm; Southerns dull.

No material change in other markets.

The man without ears lives in Iowa—farms for a living in Hardin county. The Sentinel has the following description of him: "We saw a man the other day who lives temporarily a few miles from town, who was born without ears, but who in all other respects was perfect in form. Where ears should be, there were slight protuberances of cartilage but no opening for the admission of sound. We have often met and conversed with him and never before knew of the existence of this singular freak. The gentleman says that sound reaches the inward sense of hearing through his skull in the region of the temples. Ordinary social intercourse can be carried on with him, exciting no further suspicion than that he is a little hard of hearing."

MEDICAL.

A HEROIC REMEDY!

HENRY'S

CARBOLIC

CONSTITUTION

RENOVATOR!

Based on Science, Prepared with Skill,

and all the available ingenuity and experience, that the art of pharmacy of the present day can contribute. And

COMBINING IN CONCENTRATED FORM THE MOST

Valuable Vegetable Juices

Known in the history of Medicines for

PURIFYING THE BLOOD,

Imparting

NUTRITION TO THE SYSTEM,

Tone to the Stomach,

And a Healthy action to the Liver, Kidneys, Secretive and Excretive Organs.

A DYING ZOUAVE

lay breathing his last on the battle field, his companions surged on and left him alone. They knew the cause of his approaching end it was the deadly bullet. No friendly voice could cheer him to life—no human skill could save him.

Thousands of Precious Lives

are to-day as rapidly sinking, and as surely suffering on to an untimely end, in Suffering, Agony, Wretchedness, and Ignor nce of the cause which

Science can arrest and assuage,
Nourish into new Life and Vigor,
And cause the Bloom of Health
To dance once more upon their withered Cheeks.

DISEASE, LIKE A THIEF,

Steals upon its victims unawares, and before they are aware of its attack, plants itself firmly in the system, and through neglect or inattention becomes

rooted, and defies all ordinary or temporary treatment to relinquish its merciless grasp.

DO YOU KNOW THE CAUSE OF

The wasted form—the hollow cheek?
The withered face—the shallow complexion
The feeble voice—the sunken, glassy eye?
The emaciated form—the trembling frame?
The treacherous pimple—the torturing sore?
The repulsive eruption—the inflamed eye?
The pimpled face—the rough colorless skin?
and debilitating ailments of the present age?

The answer is simple, and covers the whole ground in all its phases, viz: the

FANGS OF DISEASE

AND

HEREDITARY TAINT

ARE FIRMLY FIXED IN THE

FOUNTAIN OF LIFE—THE BLOOD.

The

INDISCRIMINATE VACCINATION

during the late war, with disease, Lymph has

TAINTED THE BEST BLOOD

in the entire land. It has planted the germ of the most melancholy disease in the veins of men, women and children on all sides, and nothing short of

A HEROIC REMEDY

will Eradicate it root and branch, forever. Such a Remedy is

HENRY'S

CARBOLIC

CONSTITUTION

RENOVATOR.

On reaching the Stomach, it assimulates at once with the food and liquids therein, and from the moment it passes into the Blood, it attacks disease at its fountain head, in its germ and maturity, and dissipates it through the avenues of the organs with unerring certainty, and secures

New and Pure Blood bounding through every Artery and Vein.

The tubercles of Scrofula that sometimes flourish and stud the inner coating of the abdomen, like kernels of corn, are withered, dissolved and eradicated and the diseased parts nourished into life. The Torpid Liver and Inactive Kidneys are stimulated to a healthy secretion, and their natural functions restored to renewed health and activity.

Its action upon the blood, fluids of the body, and Glandular System, are

TONIC, PURIFYING AND DISINFECTANT,

its touch disease droops, dies, and the victim of its violence, as it were

LEAPS TO NEW LIFE.

It relieves the entire system of Pains and Aches, enlivens the spirits, and imparts a

Sparkling brightness to the eye,
A rosy glow to the Cheek,
A ruby tinge to the Lip,
A clearness to the Head,
A brightness to the Complexion,
A buoyancy to the Spirits,
And happiness on all sides.

Thousands have been rescued from the verge of the grave by its timely use.

This remedy is now offered to the public with the most solemn assurance of its intrinsic medicinal virtues, and powerful Healing properties

FOR ALL AFFECTIONS OF THE

Kidneys, Retention of Urine,

And Diseases of Women and Children,

Nervous Prostration, Weakness, General Lassitude and loss of Appetite, it is unsurpassed.

IT EXTINGUISHES

Affections of the Bones, Habitual Costiveness, Debility, Diseases of the Kidneys, Dyspepsia, Erysipelas, Female Irregularities, Flatulency, all Skin Diseases, Liver Complaint, Indigestion, Piles, Pulmonary Diseases, Consumption, Scrofula or King's Evil and Syphilis.

Do not Insure Your Life

UNTIL YOU ASCERTAIN FROM

P. F. PESCUD,

General Agent for North Carolina,

WHY THE

National Life Insurance Company,

OF THE

UNITED STATES OF AMERICA

can, and does issue a larger Policy for less money than any other Company represented in North Carolina.

The National was organized in August 1868. She has issued nearly

10,000 POLICIES,

HAS A CASH CAPITAL OF

$1,000,000,

which was all paid in before a Policy was issued and which has already increased fifty per cent. All the losses reported to 1st Jan'y last amounted to but $40,000, and as a further evidence of the great care observed in the selection of risks, 926 applications amounting to nearly $5,000,000, were rejected last year. Therefore a solid basis and inducements that none but Stock Companies can afford, is enjoyed by all who prefer the National to Mutual or mixed Companies.

ALL LIABILITY FOR LOSSES IS AVOIDED.

Every man who has a family, should try to create an Estate for their support, when he is taken from them by death—and a very small annuity spent for a Policy secures a larger amount of Cash Assetts, and is far more certain, than the same amount will secure in any other investment, and a more tender expression of love and responsibility could not in any other way be more beautifully expressed.

NON-EXPLOSIVE COMBINATION BURNING FLUID

THE CHEAPEST, BEST AND SAFEST ILLUMINATING AGENT IN THE WORLD!!

No more Exploded Cans!—No more Exploded Lamps!
No more Smoke!—No more Grease!
No more Fires!!

EVERYBODY PREFERS IT AFTER GIVING IT A TRIAL!

IT costs less!—It lasts longer!—Gives a more Brilliant Light!—May be burned in hand lamps, without chimney.

Guaranteed to make a better and safer Light than Coal Oil and to be NON-EXPLOSIVE!!!

No accidents have ever happened with it.

Protected by Copy right for 28 years from May 8th 1868.

The above Fluid has been in constant use for upwards of three years, and has sustained its unrivalled reputation, as a brilliant, non-explosive illuminating agent, though subjected to the severest tests. Being universally conceded to be superior to Kerosene or Coal Oil. It makes a better light and more of it, than any other illuminating compound. Soft, clear, steady and unobjectionable to the eyes. All that is asked is, a fair and impartial trial.

Among the numerous testimonials received read the following:

PHILADELPHIA, March 15th, 1869.

The undersigned, having witnessed the experiments of Messrs. Hale & Co., with their Combination Burning Fluid, take pleasure in commending it to the public. The various tests to which the Fluid was subjected, was in the highest degree satisfactory. We have no hesitation in pronouncing it to be a *safe and brilliant* illuminating agent. Its cheapness added to its other good qualities, should insure its introduction into every family in the country, where Kerosene Oil is used.

The Stock of this Company is owned by the Capitalists of Louisville, Ky., and St. Louis, Mo. It is emphatically a Western and Southern Institution.

The DE SOTO has no desire to exalt its merits over those of other good Companies, nor to prosper on the decline of others, laboring in the same fields, and for the same grand object. Confident of its equal advantages with others, of whatever age or standing, it is willing to labor honorably for success, and hopes to deserve the public confidence by its energy, industry, and liberal spirit.

From the Missouri Republican.

"Few Companies have started out with such gratifying and flattering prospects of success, and under such favorable auspices. The Company has been extremely fortunate in the selection of its Directory. The President, James P. Lucas, needs not a word of commendation from us. He enjoys a general reputation as a gentleman of wealth, unquestioned integrity, practical good sense, sound judgment and splendid business capacity.

The Directors rank among the first class of our merchants, bankers and citizens; as men of capital, as social ability and experience; men of probity and unblemished reputation. In the character of such a Directory, the community have the best guarantee that the business of the Company will be prudently and judiciously managed."

Policies issued on all the popular plans and all Non-Forfeiting.

Policy-holders may travel by the usual modes of conveyance, either by land, river, lake or ocean; also, in any portion of the United States and Territories, the settled portions of the two Canadas, Nova Scotia and New Brunswick, and in time of peace may cross and recross the Atlantic Ocean by the usual passenger routes to, and travel and reside within, any portion of Europe.

UPWARD AND ONWARD!!

WHY IS IT BEST TO INSURE IN THE

BROOKLYN LIFE?

BECAUSE,

AMONG OTHER REASONS, IT IS THE ONLY COMPANY IN THE UNITED STATES WHICH PRESENTS THE GREAT FEATURE OF GUARANTEEING DEFINITE

CASH SURRENDER VALUES,

IN CASE A POLICY IS FORFEITED FOR NON-PAYMENT OF PREMIUM.

ALL POLICIES

Are non-forfeitable after two full Annual Premiums have been paid.

The policy-holders of this Company may travel or reside where they choose—anywhere on the Globe.

The BROOKLYN LIFE has paid, and now pays to its policy-holders, LARGER DIVIDENDS than ever before paid by a Life Insurance Company.

DIVIDENDS ARE PAID IN CASH,

or applied to the permanent increase of the policy, or left with the Company to accumulate at interest, in either way, at the option of the policy-holder.

HON. ELIZUR WRIGHT, of Mass., Consulting Actuary.
PRINCIPAL OFFICE AT ST. LOUIS, MO., OLIVE STREET, No. 313.

No Life Insurance Company in the United States offers superior advantages for insurance or investment, than the St. Louis Mutual. It is managed by gentlemen of the highest capacity and standing and it enjoys the largest confidence of those acquainted with Insurance Companies.

Its Policies are liberal; its premiums moderate and made easy; its losses are paid promptly and its investments are made on the most solid basis, being principally in improved real estate *worth twice the amount invested, paying ten per cent per annum.*

All its Policies are non-forfeitable and all participate in dividends from the beginning.

Dividends declared and applied annually to policy holders on the contribution plan.

The Company is strictly Mutual, and the profits of its business are paid not to stockholders but to its policy holders.

An equitable surrender value paid to all who through misfortune are unable to keep up their policies.
